

1. Circuit

The circuit diagram was created using Proteus.

2. System Design & Logic:

Voting Logic:

Startup:

- LCD displays:

```
Welcome to Class  
Election
```

Live Voting:

- Votes are updated and shown like:

```
Stud1 Vote = 03  
Stud2 Vote = 04
```

Result Display:

- On 18 votes, one of the following appears:

```
Voting Complete!
Winner: Student1
```

In case of tie (9-9):

```
It's a Tie!
Picking Winner...
```

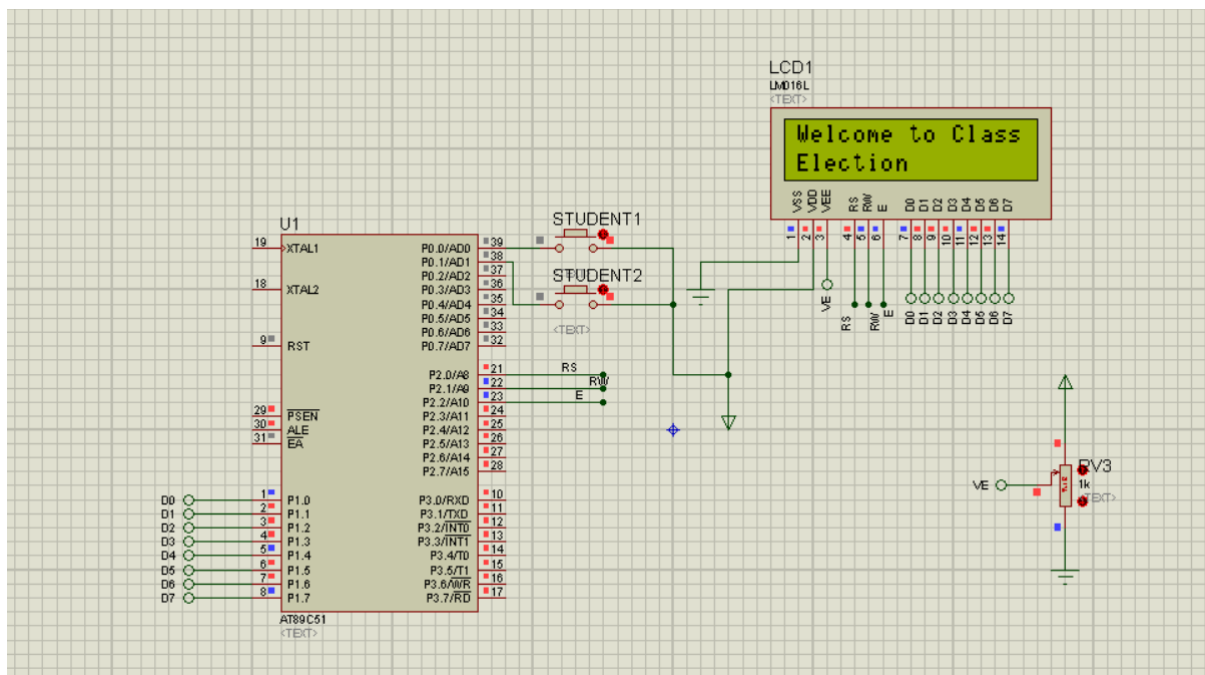

Then:

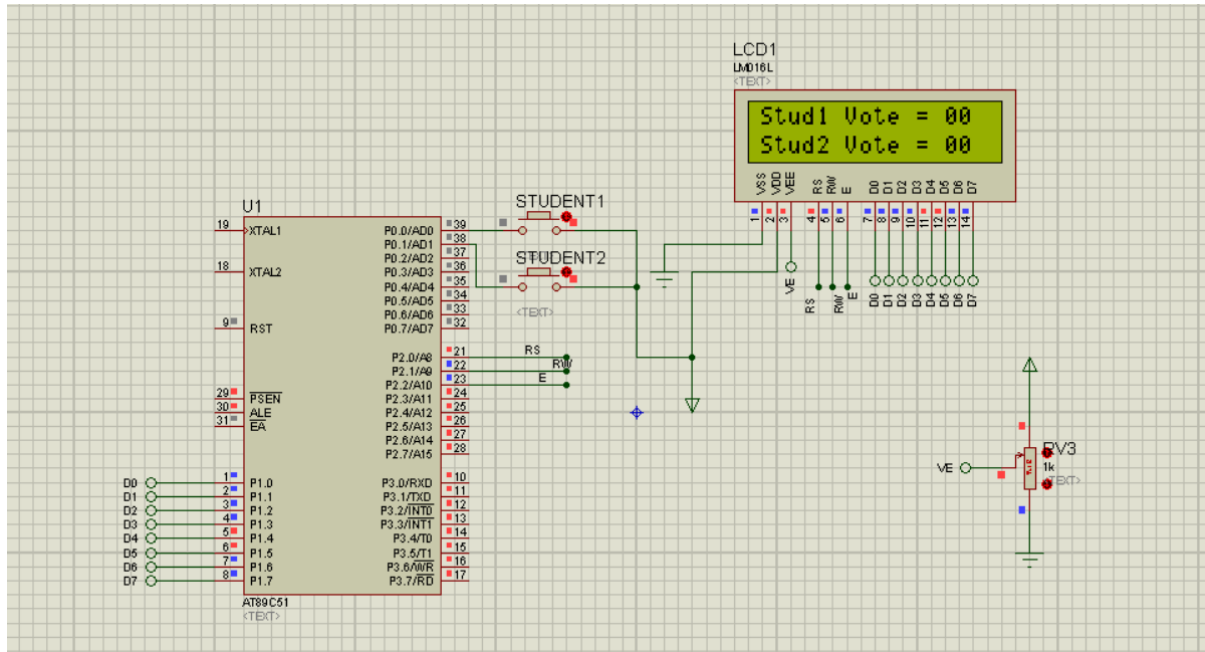

```
Voting Complete!
Winner: StudentX
```
